

NOTE: I keep my files in the folder `c:\GDrive\A` with subfolders `c:\GDrive\A\TP\BGI`
`c:\GDrive\A\TP\BIN` `c:\GDrive\A\TpFiles\NewUnits`

If your files are located in `c:\MyFiles\` you can create subfolders `c:\MyFiles\TP\BGI`
`c:\MyFiles\TP\BIN` `c:\MyFiles\TpFiles\NewUnits` and replace everything that reads `c:\GDrive\A` in the settings below with `c:\MyFiles\`
